Federal Railroad Administration

Petition for Waiver of Compliance

Docket Number FRA-2015-0132

In accordance with part 211 of Title 49 Code of Federal Regulations (CFR), this document provides the public notice that by a document dated September 22, 2015, the Northeast Illinois Regional Commuter Railroad Corporation (Metra) has petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR Part 238, Passenger Equipment Safety Standards. FRA assigned the petition docket number FRA-2015-0132.

Metra seeks a 6-month waiver of compliance from the requirements of 49 CFR 238.115(b)(1)–(2) regarding passenger car emergency lighting (until June 30, 2016). Metra is seeking this temporary relief because 70 percent of its passenger rolling stock fleet of 544 coaches, which were ordered prior to September 8, 2000, and placed into service prior to September 9, 2002, will not meet the emergency lighting requirement deadline of December 31, 2015. Metra justifies the need for this deadline extension because of ongoing funding and technical difficulties. The extra time sought in this petition will allow Metra to retrofit 70 percent of its passenger rolling stock fleet to meet the requirements.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the Department of Transportation's (DOT) Docket Operations Facility, 1200 New Jersey Avenue, SE., W12-140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.
